

## HIGHLIGHTS

- 3 way triax system with integrated crossover
- PTC-protected midrange and tweeter
- SPL-optimized coated paper cone
- High power magnet incl. magnet cover

| SPECIFICATIONS              | Racer 320        |
|-----------------------------|------------------|
| Principle                   | 3 way            |
| System                      | triaxial         |
| Power handling RMS/max. (W) | 100/400          |
| Impedance ( $\Omega$ )      | 4                |
| Frequency response (Hz)     | 22 - 34 000      |
| Crossover frequencies (Hz)  | 1200/3700 Hz     |
| SPL (dB)                    | 92               |
| DIN-Ø (mm)                  | 200              |
| Cutting Out (mm)            | 185              |
| Mounting depth (mm)         | 72               |
| Art.No.                     | 110 32221        |
| EAN.                        | 40 23037 32221 7 |
