

SOFTWARE UPDATE MRS 777

IMPORTANT NOTES

1. Read and understand these instructions before proceeding with the software update.
2. Please follow all steps exactly in the following order! If any error occurs during the update the unit will be damaged irreparably.
3. Do not power OFF the MRS 777 during the software update or the MRS 777 may become inoperable.
4. Mac Audio does not accept any liability for an erroneous update and as a consequence a damage of the unit.

The software update MRS 777 include the improvement of FM tuner reception.

Required is a USB stick (FAT 16 format and max. 8 GB).

The update file must be copied to the empty root folder of the USB stick.

Switch ON the MRS 777.

Insert the USB stick into USB – A MRS 777.

Change source to USB mode. The update start automatically and take approximately 1 minute and then the MRS 777 will switch on again (**The MRS 777 switch ON automatically after update, please remove USB stick during auto switch ON after upgrade!**). Remove the USB stick.

The installed software version can be checked with following method:

- Switch ON
- Select source LINE IN
- Adjust volumen to 0
- Wait till display displays LINE IN again
- Press PLAY/PAUSE button for several seconds and then the installed software version „MRS 777: U31“ will be displayed, software update successful and FM tuner reception improved.
